Under the leadership of the chairman, Mr. Tobee Wu, Wondershare has been growing the business steadily, exploring new market directions, constantly innovating business models, and maintaining high-speed development through the establishment of a global business system. With the help of the A-share platform, through a global team and vision, Wondershare will achieve even greater success.

十多年来，万兴科技一直在做一件事，就是通过互联网把中国研发的软件产品卖到全世界。经过十多年的发展，从无到有，从小到大，可以说万兴能够成为 A 股一家新兴的科技企业是一件非常出彩的事情。展望未来，随着中国政府对知识产权越来越重视，软件和硬件的结合、软件服务化成为未来一个重要的发展趋势，我相信万兴科技会有更大的发展。祝贺万兴，加油万兴。

For more than a decade, Wondershare has been doing one thing, that is to sell Chinese-developed software products to the world through the Internet. Over the course of ten years, Wondershare has grown from a small start-up to an A-share emerging technology company. As the Chinese government pays more attention to intellectual property rights, the combination of software and hardware and software servitization have become significant industrial trends. Thus, I believe that Wondershare will have greater development in this bright future. Congratulations to Wondershare and hope you a better tomorrow.
